RadComp Newsletter - April 2024

RadComp™

PATIENT POWERED

A study at the heart of breast cancer treatment

Study News

The RadComp Trial Has Completed Enrollment

We express our deep gratitude to our participants, enrolling physicians, and study teams across the country. The RadComp trial completed enrollment of **1,239** participants on March 27 2024. We look forward to continuing long-term follow up and reporting results for quality of life, cancer control, and cardiovascular outcomes.

Last Quarter Enrolling Physicians

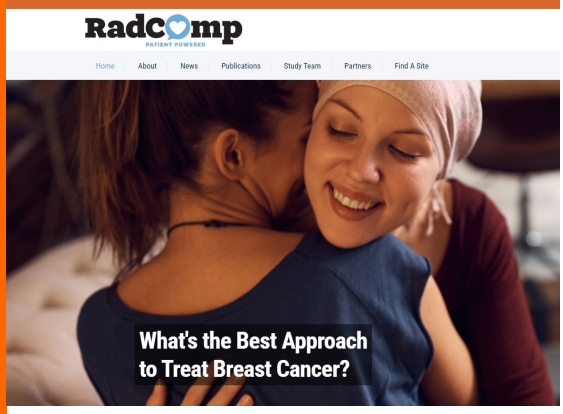

Farewell and Thank you to Arin Ahlum Hanson

Over the past eight years, Arin Ahlum Hanson has been serving the RadComp Study as a patient advocate for Living Beyond Breast Cancer. She helped form RadComp's patient centered philosophies and activities and worked to keep the Study focused on patients.

n=15
U. Miami-1
M. Sloan Kettering - 1
J. Hopkins - 1
U. Maryland - 1
U. Washington-7
Northwestern - 2
Penn Medicine - 2

Thank you!

Farewell and Thank You to Arin Ahlum Hanson

RadComp Advocacy Advisory partner, Arin Ahlum Hanson has decided to move on to new professional chapter and will be leaving her role as Director of Outreach for Living Beyond Breast Cancer (LBBC), a national nonprofit that has provided support to breast cancer patients, survivors, and caregivers for over 30 years. In her role, she oversaw research, evaluation, development and educational programs at LBBC.

Arin coordinated LBBC's support for the RadComp Study. She is one of our longest serving Advocacy Advisors, having participated in the committee for more than eight years, helping to connect our participants with breast cancer information and support services. Arin advised on best practices for engaging with participants, reaching harder-to-reach patient populations, and relaying important research findings and resources. RadComp is indebted to Arin for helping ensure that the patient voice is central to everything we do. Some of the area in which advised Arin include:

- Expanded study eligibility guidelines to make the trial accessible to more participants
- Simplified treatment guidelines for ease of practice
- Incorporated compensation for research activities completed by participants.

In addition, some of the most recent areas in which Arin advised include RadComp's long-term follow up stage procedures and practices, communication and participant retention, and the building of the RadComp Call Center.

Lynn Folkman, LBBC's Manager of Community Engagement, will replace Arin on the Advisory Committee. Lynn, a breast cancer survivor, has worked with LBBC since 2012. We look forward to working with her as RadComp moves to its post-enrollment stage.

Welcome Lynn!
